THE BURRARD INLET RESERVE.

There is scarcely room to doubt, from the "style," that the writer of the recent articles in the Times and "Mercutio" are one and the same. It is a work of supererogation to tell this gentleman and the few who think with him that the land reserved at Burrard Inlet is nearly all covered by a timber lease, and that the little that is not so covered is unfit for agricultural purposes. Upon the plea of defending the rights of the "settler," but really in the interest of land-grabbers and speculators, the great injury that has been done to the agriculturalist by the reservation is placed before people's eyes; when, in point of fact, ALL the land available for agricultural purposes was thrown open to pre-emption by proclamation on the 3d and 10th of May last. The Times has an ally in the Guardian; but it out-Times the Times by demanding that the Coal Harbor lands—which are worth from $100 to $300 an acre—be opened to pre-emption at $1 an acre. The Guardian offers to "wager a trifle" that within six hours after it was made known that the land was open to pre-emption there would not be a single acre unoccupied! Very likely. It would be selling $20 pieces for ten cents. If the government were to throw open those lands to pre-emption they would deserve to be beaten out of the government buildings with clubs. It would be a shameful spoliation of the public to sell land which is not suited for agricultural purposes, but may be of great value as a possible townsite, at one dollar an acre when land held by private parties all about it is selling at $250 to $400 an acre. No, no! Messrs. Times and Guardian, the government has too high an appreciation of what it owes the country to follow your "disinterested" advice. The Columbian, which is printed near the spot, supports the position of *The Colonist* and says that outside of private holdings and the timber lease there are only about 1000 acres covered by the reserve. It adds: "It is the opinion of the public generally, and it is our opinion, that very little of this land, if any, would be taken up for agricultural purposes. For many years it has been open for settlement in the same way as other lands within the railway belt, but people refused to take it because it was not suitable for farming, and there are thousands of acres in other parts of the district infinitely superior. We have no doubt that those who are eager to get this land have not agriculture in view, but speculation. They may be willing to take it up under the preemption laws, and perform the required improvements, but the ultimate object is to speculate. There can be no doubt on this point. It is fair to enquire, then, how this land could be kept out of the hands of speculators by removing the reserve."

THE CHINESE COMMISSION.

Elsewhere we give room to a letter on this subject. The writer takes the ground that a commision is unnecessary—and especially does he object to its *personnel*. In support of the first objection the correspondent thinks that the work and report of a committee of the house of commons were sufficient to enable the Dominion government to form an opinion for or against agree with the writer. The government before taking a step which, in effect, would abrogate a treaty of Great Britain with China have wisely resolved to exhaust every possible source of information. The sitting of the commission at San Francisco—the hotbed of the evil—we regard as a master stroke and one which ought to shape the report adversely to Chinese immigration. Upon the *personnel* of the commission we have already expressed ourselves. It is not such as the province and its representatives had a right to expect from Ottawa. Mr. Chapleau is a gentleman of acknowledged ability; but he has had no experience with the Chinese. To acquire that he must have resided for some time in a community where the Chinese constitute a considerable portion of the population. As to Mr. Justice Gray his hands are already too full of judicial business to permit of his paying the attention to the duties of the commission that its importance deserves. What is wanted is a local representative on the commission, a man of experience who is possessed of the ability necessary to place the "anti" side of the inquiry fairly and fully before his colleagues and the Dominion government. If not too late the provincial government should apply for representation on the board; and if the application is granted an exhaustive inquiry and fair report may be looked for.

MR. GEO. A. TURNER.

In consequence of ill-health, Mr. Geo. A. Turner, who for several years has been attached with the editorial staff of *The Colonist*, has resigned. Mr. Turner intends proceeding to Kamloops, where it is hoped he will find relief for the complaint of which he suffers. Our late colleague has our best wishes for a restoration to health. We have always found him a most agreeable gentleman and an assiduous and able worker. His resignation is a severe loss to the press of the capital.

The Chinese Question.

To THE EDITOR:—In my opinion the appointment of a commission by the Dominion government to enquire into the Chinese question in this province is entirely unnecessary, and a wasteful expenditure of the people's money.

I have before me a copy of the journals of the house of commons, Canada, for the year 1879; therei nI find a committee was appointed by parliament to enquire into the question of Chinese immigration to this province. That committee met and took evidence pro. and con., and the result of their investigations were that it was undesirable to encourage that class of people to come to British Columbia or to employ them on the public works of the province. The evidence taken was all printed and is on record to-day. Every year since that time our local government have forwarded truthfully prepared documents to the Dominion government setting forth the evil results of so large a number of Chinese coming to this province and asking for legislative action. Facts and figures have been given them by our members in the house of commons on this very question. This information has been furnished by men who know mething about the question, and now he government come and say, "Gentlemen, we don't understand the nature of your difficulties with the Chinese, so we have appointed a commission consisting of two gentlemen." I would like to ask, Mr. Editor, what do these two gentlemen know about the question? The answer must be, nothing at all, excepting that they are in favor of the Chinese. If the government want a fair investigation into this all important question why not have two practical men on with the present ones, men who have come into contact with the existing demoralising evil? And again, sir, this investigation if gone into properly cannot be hurried through in a few days. It will take at least six months hard work before the investigation can be properly completed.

Sir John was told on the floor of the house of commons last session that the appointment of a commission was entirely unnecessary; and, sir, I believe the appointment of this commission is a farce and an insult to the intelligence of the people of this province. I trust the people will not be afraid to express themselves when Mr. Chapleau arrives.

ANTI-MONGOLIAN.

VICTORIA, July 24th.

TO THE EDITOR:—I see by the papers that a commissioner has been sent out by the Dominion government to enquire into the Chinese question in this province. I also observe, from the tone of the journals, that very little hope is entertained of a satisfactory result of the investigation; and, looking at the circumstances of the inquiry and the personnel of the commission, the prospect is certainly not encouraging.

There is really no necessity for any inquiry, because the evils incident to Chinese immigration are obvious, and are well known to everybody on the Pacific coast. Besides, have not our representatives at Ottawa, for a long period, dinned it into the ears of parliament that Chinese immigration is violently opposed by the mass of the people in this province, that it prevents all other immigration, that it impoverishes and checks the progress of the colony? Either the Canadians must think that we are entirely unworthy of belief, or they must suppose that we are so stupid that we do not know what is good for us, and that they alone are competent to look after our interests.

The effects of the Chinese immigration are, of course, the same here as in the United States. On this ground also, then, there is no necessity for any further inquiry, because some years ago an elaborate investigation of the Chinese question was held in California, and the result was the Restriction Bill. Even if enough time were devoted to the matter here, it is not likely that the commission would be so effective as in California, because the Chinese are aware of the proposed inquiry; whereas the reseaches of the Americans had been conducted for a long time in a secret and informal manner, and so various items were obtained, which could not have been got in any other way, owing to the well known secretiveness and reticence of the Chinese. For example, Chinese scholars showed that assassination notices had been frequently posted in Chinatown, i. e., placards promising a reward to any one who would kill some obnoxious Chinaman who had rebelled against the companies. Again, it had always been alleged by the oppenents of the Chinese that they (the laboring Chinese) were brought here as serfs. But it was necessary to bring proofs. For this purpose, several contracts were produced recording the sale of male and female Chinese. The contracts were expressed as follows: "Ah Moy hereby sells her body to ———, for five years for $300, to be paid at the expiration of that time." Then follow stipulations that, if she were sick and unable to attend to business, the time of the service was to be proportionally lengthened, and so on. I have myself seen several of these documents. All the exertions of the United States authorities to break up the terrorism by which the wealthy Chinese companies [illegible] have been unavailing. In spite of all their efforts, the "imperium in imperio" remains intact.

When Mr. Chapleau arrives he will probably be received with great distinction. He will be invited to the houses of the great employers of Chinese labour; he will visit the canneries, the railway, the coal-mines, and, by what he is told there, and by the courtesies of his entertainers, he will be thoroughly convinced that Chinese labour is indispensable to the industrial progress of the colony. Any further action in the matter will, therefore, in all probability, be postponed until the province is filled to overflowing with Chinese; then, when the mischief is irreparable, there will perhaps be brought forward some useless Exclusion Bill.

The situation of the province in regard to its relations to the Dominion is assuredly not enviable. It is not pleasant to act the part of Job's comforters; but we cannot refrain from calling attention to the humiliating position of the colony. Here we have for years been beseeching the Canadians to attend to a matter of vital interest to us; but as it it does not immediately concern them they have been deaf to our entreaties. Our representation in the Dominion parliament being small we have no political influence there. We have thus very little share in the general government, at the same time our right of local government is being gradually encroached upon; witness the liquor act which the Dominion Government is trying to force on the provinces. It is in reality, a sumptuary act. The Canadian statesmen are assuming the right of censorship over the morals of the provinces. Next, I suppose, they will undertake to regulate cigar stores, houses of illfame, the observance of the Sabbath, etc., all very moral and proper, no doubt, only it is exactly the sort of parental government from which we thought we had forever escaped. The people of this province are like Esau, who sold his birthright for a mess of pottage—with the difference that they have not got the pottage. Why did we consent to increased taxation and the curtailment of our liberty? Was it not with the hope of obtaining great material advantages? Where are these advantages? Since confederation the progress of the colony has been enormously retarded owing to the land being locked up from settlement. Even if we gain all we ask for the increase of prosperity may not be as great as is expected. The C. P. railway will be of great service to Canada and, perhaps, to England; but the benefit to this country will be very indirect. As the most fertile lands of the province are not immediately contiguous to the railway I do not see how its mere existence can tend to enhance their value.

The Proposed Agricultural Hall --Beacon Hill Park.

TO THE EDITOR:—Can you inform your readers by what authority the Agricultural Society propose erecting a lot of wooden buildings on our beautiful public park? I I was certainly under the impression that Beacon Hill was set over as a public park and recreation grounds, and the late Mr. A. C. Anderson penned some well chosen remarks on the subject shortly before his death. I understand the Agricultural Society some time since purchased land off the Saanich road, in my opinion a very desirable site for the purposes of exhibition, and most convenient to the farming community in that section, and I fail to see on what ground one of the prettiest spots on our public park should now be appropriated by any particular society or sect. If this sort of thing is tolerated further portions of the public park might be claimed by the St. Andrews and Caledonian, Pioneers, Benevolent and other societies; and it is to be sincerely hoped, therefore, that this encroachment on public rights will be at once stopped.

I am informed that the Agricultural Society intend asking the public for subscriptions in aid of the proposed new buildings, but those who really value the advantages of a beautiful public park, forming as it does such a great acquisition to Victoria, will surely not encourage the steps now taken to devote a public recreation ground to purposes for which they certainly were not dedicated. It is rumored that an injunction will be applied for to restrain the society from carrying out its design on the public park, and if this is necessary to attain that end I trust it will be done.

TO THE EDITOR.—There is no foundation for the statement in yesterday's Standard that I have been appointed Chinese consul. T. B. HUMPHREYS.

ROUTE OF THE CANADIAN PACIFIC WEST OF THE ROCKY MOUNTAINS.

DESCRIPTION OF THE COUNTRY.

Columbia River Crossings.

(Cor. Toronto Globe.)

CALGARY.

115° W. Longitude and 52° N. Latitude was reached by the Canada Pacific railway about the 15th of August last year. It is situated between the Bow and Elbow Rivers, is 3,100 feet above the sea and 840 miles west of Winnipeg.

Thirty-five miles further west is Morleyville, a village picturesquely situated, and containing two hundred souls, half whites and half Indians. This little village is situated on the Stony Indian Reserve. The Stony Indians are so industrious that the government has stopped supporting them, which it has not been able to do with any other tribe.

SIXTY MILES WEST

of Calgary is "the gorge," or entrance to the Rocky Mountains, this place is 4,390 feet above the sea.

Padmore, which is the end of a division and is located in the Park—a charming spot—is sixteen miles from the "Gorge."

Laggan (this place), at the summit of the Rockies, and boundary of British Columbia, is 120 miles west of Calgary, and has an elevation of 5,309 feet.

The C. P. R. track stopped here last Fall, after having been laid 320 miles in seven months (from Swift Current to the Summit) and is now

FIVE MILES FARTHER.

Here the Bow River, which the track has followed from Calgary, has its source, and flows eastward, near here also the Kicking Horse rises and flows south-west into the Columbia River sixty miles from here.

The Kicking Horse Pass extends from the "Summit" to the Columbia flats. The grading at the line through this Pass is now being actively carried on and the rails will probably be laid over the first crossing of the Coluumbia River 'ere this year closes.

[illegible] so much talked of last year, starts from this place, runs north west for nearly a hundred miles then turns suddenly to south-west along Blackberry Creek, which empties into the Columbia a little below the Kicking Horse River.

The House Pass was finally abandoned in favor of the

KICKING HORSE PASS

on account of its much greater length (being 200 miles, against 60 of the Kicking Horse) also because it would require a number of very sharp curves, and fourteen miles of 2:40 gradient.

The first crossing of the Columbia is 2,300 feet above sea-level; after crossing the line will run down the west side of the river about forty miles, then turn and run south-westerly for sixty-five miles down Moberly Creek where it crosses the Columbia the second time, at an elevation of 1,493 feet. Between these two crossings is the

SELKIRK RANGE,

on which the summit of the track will be 4,300 feet above the sea. By crossing the Selkirk Range 140 miles are saved, as it is over two hundred miles around by the Columbia River.

THE EAGLE PASS

will then take the line through the Gold Range, again raising its elevation, this time to 1,800 feet. Then it will cross the lower part of Valley Loke and run down along the shores of Thompson River to Kamloops (124° W., Longitude and 51° N. Latitude.

AT KAMLOOPS,

this branch of the C. P. R. will join the western branch (being built by Onderdonk) making the line complete from the Pacific to Winnipeg, or may be to Montreal by that time. The distance from here to Kamloops is 270 miles by the route to be taken by the C. P. R.

THE ELEVATION

given of course refers to the height of the track above the sea. The mountain on each side of the track rises from 4,000 to 6,000 feet above the track.

A GREAT DEAL OF RAIN

has fallen here lately. Last week very severe frosts were experienced, snow fell heavily on the mountains and a bitterly cold rain in the valleys inasmuch as roaring fires were kept up in the shanties used for offices, &c.

The nights are always refreshingly cold while the days are generally pleasantly warm, a contrast to Medicine Hat, where the thermometer rose last summer to 107° Fahrin in the shade, and which place is now running a race with Memphis for the hottest spot in America.

A Dublin Sensation.

DUBLIN, July 16.—A sensation has been caused in this city by the arrest of a quaker named Pillar, who is a married man and the father of a large family, and who is alleged to have accumulated a fortune by letting houses at enormous rents for various felonious practices such as Cornwall, French and others are charged with the commission. Warrants have been issued for several other arrests on similar charges.

HOT.—Yesterday afternoon the weather was unusually hot, reminding one of an eastern sultry day. Fortunately these spells are not of long duration in this city.

What Some People Say.

That the Woman's Herald of Industry and Social Science Cooperator is a female suffrage paper which is published in San Francisco. It wants

A woman in the White House,
A woman on the throne,
A woman for Governor.

And it has a ticket at the head of its columns which reads:

EQUAL RIGHTS PARTY.
For President of the United States,
ABIGAIL SCOTT DUNIWAY
For Governor of California,
CLARA SHORTRIDGE FOLTZ.

That G. Schiller, a tailor in the Post building, has absquatulated with a lot of unfinished work, and a considerable sum. Studhorse poker is said to be the animal that carried him off.

That T. N. Hibben & Co. are fully prepared to supply the schools with the newly authorized Gage's series of school books direct from the publishers. 1mw

That each soldier on Beacon Hill is to be provided with an air bed and an eider down quilt.

That the Guardian says the Imperial government have resolved to build the drydock at Port Moody. Anything for a realestate "boom," but Port Moody is too "flat" for the purpose of a drydock. It must always be "wet."

That the Columbian denounces Cole's circus as a swindle.

That G. W. A. Lange & Son offer twenty settlers a home and a fortune. *

THAT MESSRS. J. B. FERGUSON & CO. HAVE A STOCK OF CAGE'S NEW SCHOOL BOOKS JUST TO HAND. SPECIAL TERMS TO THE TRADE.

That a fresh lot of San Juan strawberries and a lot of chickens (broilers) were received this morning at Beauchamp's, Yates street.

That the King Tye Co. are leading manufacturers and importers of clothing, groceries, etc. *

That Clothing, Hats and Underclothing are very cheap at W. & J. Wilson's. Look at their prices and you will see that their stock is the best value in Victoria. *

That Ed. Schieffler, the ½-millionaire, who fitted out an expedition for Yukon river in search of gold and found only cold, tells the San Francisco Chronicle that he wants no more Alaska in his. He prefers to take it without.

That New Westminster Chinamen are going largely into the importation of spirits; and yet not a Chinaman in the place has taken out a license.

That if the Seattle Post-Intelligencer is to be believed its morning contemporary is in failing circumstances There is room at Seattle for two good newspapers — a morning and an evening. Beyond that the press becomes a burthen and a tax on a small community.

That Jules Ferry's indisposition is attributed to "too many iced drinks."

That Richard Proctor says Wiggins' moon theory is absurd. In short that Wiggins is luny.

That although Ella Wheeler has written over 1,500 poems within a few years she enjoys good health.

That King Tawhiao is accompanied by two policemen when he walks out in London to prevent the idlers from thronging about the odd visitor.

That Miss Frances E. Willard, the popular and good looking temperance advocate, is spoken of as a candidate for president on the prohibition ticket which is to be nominated in Pittsburg shortly.

That at the Fontaine sale in London June 15th among the majolica a small Faenza plate, dated 1598 and decorated, it was asserted, with a subject from Albert Durer, brought 920 guineas, and that too from a Parisian dealer.

That the British Society for the Propagation of the Gospel have, it appears, expended an aggregate of £1,627,601 in church work in British North America.

That the claimant is to be released on a ticket-of-leave on October 24th. That he is not Sir Roger seemed to be proved, but that he is Arthur Orton we never were fully convinced.

That when shooting at a cat you should not hit your wife. At Droylsden, in England, Mrs. Egerton kept tame linnets in her bath room and observing a cat on the window sill of the room called her husband's attention to it. He took out his gun into the garden. Just as his wife moved to the window he pulled the trigger and she fell dead.

That an incident in the franchise debate in the lords commented upon by everybody as showing a remarkable change in the spirit of the times, was the support of the bill by twelve out of thirteen bishops and the strongly democratic flavor of the speech of the Archbishop of Canterbury. In 1831 the reform bill was opposed by twenty-one bishops.

ACCIDENT. — Yesterday evening as Walter Reeford and two other men were crossing the second bridge on the Gorge road seated on a load of hay the ropes which held the pole over the hay broke and the pole springing threw the men into the air. Reeford alighted on the rail of the bridge and sustained a compound fracture of the right leg in two places below the knee. Another of the men fell beween the rails and the bridge and was slightly hurt. The third man, a sailor, escaped unhurt. Mr. James Yates came in for Dr. Milne who promptly responded by driving to Mrs Calvert's house and setting the injured man's leg. Had the men fallen into the deep ravine below the bridge they would probably have all been killed.

THE PRESBYTERY met in this city yesterday, Rev. Mr. Dunn of Langley moderator, presiding. There were present, Rev. Mr. Stephen of Victoria, Rev. Mr. Anderson of Nanaimo, Rev. Mr. Christie of Comox and Mr. A. Munro, elder. Routine business only was transacted.

SALMON.

Report of the Columbia River Catch.

The following from Sunday's Astorian will interest those who have wagered new hats on a short pack: History is said to be precept teaching by example. If this is so, the probable outcome of the business so far as salmon-fishing on the Columbia river is concerned, will probably be this—no more fishing in April, and not much in May. Last year fish were seventy-five and ninety cents all through the season, and at this price canners packed half a million cases. Then came the glut in July, boats coming in loaded down with salmon that went begging at two bits apiece, and canners who had filled their cans with high-priced fish stood and saw fish equally as good thrown away, because there was not capacity enough in the canneries to get away with them as fast as they came. The beach from Alderbrook to Uniontown was lined with the festering carcasses of the finest Chinook salmon, from which the bellies had been cut, and any man could have all he wanted for the asking. This year brings the same state of affairs. The chief difference is that the cannery supplies are not quite as plentiful as they were in 1883. In April very little fishing was done. The Cutting and one or two other companies packed through April, the great majority of the canneries did nothing till May. The May run was a little below the average; the June run about equal to that of last, but about the 5th inst. came a rush from the sea that taxed the utmost capacity of the fishermen to catch and the canners to prepare. During the last week the fish have come in incredible quantities, and the price has dropped to four bits and even less. Some of the canneries will shut down to-morrow, more on Wednesday, several more on Thursday, and the close of this week will see few of the thirty-eight putting up any salmon. As to the future, the oldest and most experienced in the business say: "We don't know."

Nanaimo.

(Free Press.)

On Monday, workmen employed at the scene of the late explosion in No. 3 shaft, South Wellington colliery, found the lamp and cap of the late John Frear, on the bottom coal, and close up to the face. The cap and lamp were within a few inches of each other.

Rev. Thos. Haddon, accompanied by his wife and six children, arrived by the steamer Amelia on Monday from Canada. The rev. gentleman has been appointed to the Wellington Methodist Church.

Rev. C. Bryant, who for the last three years has filled the Methodist pulpit in this city, will leave for Chilliwack, and Mr. E. Robson of New Westminster will assume charge of Ebenezer Church. Rev. C. Bryant, during his pastorate, has been earnest and faithful in his ministration of the Word of God, and will carry with him to his new field of labor the good wishes and prayers of his late congregation, while the citizens generally feel that they are parting with a friend and an upright man. Rev. E. Robson will be welcomed, for he is not a stranger, having been in charge of Nanaimo Methodist Mission at the time the present Church was built, and as an acknowledgment of his labors in the good cause the church was named after him.

W. E. Blackett has been awarded the contract for the construction of the new Howe truss bridge across Nanaimo river. The contract price is $2,774.

On Monday, Messrs. R. Dunsmuir and J. Bryden became sureties in the sum of $2,000 each for the appearance of John Knox at the next assizes, and Knox was released.

The Bazaar.

At 12 o'clock yesterday the hall on View street was reopened. A large number sat down to lunch. All declared themselves delighted with the management of this department and the nice things provided for their entertainment. The business transacted was about the same in amount as that on Wednesday. During the day a number of the young ladies favored the visitors with selections upon the Decker piano and delighted their hearers by their performance upon that superb instrument. In the evening the hall was filled with visitors, who one and all expressed themselves delighted with the proceedings and the endeavors of Mrs. Burns, the manageress, and the other ladies to make it as pleasant as possible. The Victoria brass band was again in attendance and much credit is due the young gentlemen for the excellent music which they played. Among the reverend gentlemen present were Bishop Lootens, Rev. Fathers Jonckau, Heynan, Donkele, Mendart and Eussen. Owing to many articles of value being unsold the committee have decided to open the hall this afternoon and evening when the result of the numerous raffles will be made know. No lunch will be provided, but refreshments may be had at the stalls during the day.

Next Tuesday evening the Reverend Father J. Neri, professor of St. Ignatius college, San Francisco, an eminent lecturer, will lecture in the new hall at 8 p.m.; the subject will be "The Middle Ages."

Municipal Police Court.

(Before Hon. A. F. Pemberton.)

THURSDAY, July 24.

W. G. Luker, charged with hawking without a license, was defended by Mr. Mills.

A. Donnelly testified that the defendant employed him to take orders for fish, vegetables and fruit.

Mr. Mills contended there had been no violation of the law, and his honor adjourned the case.

DISCHARGING FIREARMS.

ABDUCTION.

The case against the Chinese highbinders, for abducting three Chinese women from this city several days since was resumed. Sam Saul being cross-examined, said that in company with the three girls she was sewing when two Chinamen and two white men came in and carried them away. She caught hold of Choy One, but a man struck her hand and shut the door and kept her inside. Dr. Jackson was called, and said that he went on Tuesday, accompanied by Mr. Walls, clerk, to see a Chinese woman. He asked her, through an interpreter, what was the matter, and she said she had a headache. He thought she was shamming. Yesterday he heard she was vomiting. He was told she was but sixteen years of age. She was covered up when he saw her so much that he could not recognize her. C. McKenney said he was steward on the Eliza Anderson when the arrest was made, and the prisoners, the Chinese men and women, seemed very friendly. The women did not seem to want to go on board the steamer. To Mr. Mills: He stated that the Chinamen came on board first, the women next and the white men last. The three parties were put into separate staterooms. He did not, he said, notice that they were wet or exhausted. Platt told him to look after the women, and was watchman eight days, and left last Sunday. Didn't know why he was discharged. Had been seaman on board the Spuney, and had not deserted nor got money for coming here. He further informed Mr. Mills that he did not leave his country for his country's good. After two Chinamen had been examined, Mr. Pemberton decided to send the case up to court in November next. They were admitted to bail, two of them in $1,000 each and two in $500 each.

Tinned Salmon.

We had a very good story told us, and which, unlike many good stories, is literally true. A gentleman from California is paying his first visit to London. He is a keen, sharp specimen of his keen, sharp race. Being asked which of the wonders of London had the most astonished him, he replied without the slightest hesitation, "The price of California tinned salmon! I have to pay 1s per tin for the salmon in the place where it is caught and tinned thousands of miles away, and I can buy it in London for 6½d." What an amusing idea this gives one of a true American! it was said. Here was a man who had been wandering amid the wonders of the grandest and most interesting city the world has ever known, full of the marvels of art and science, and almost every street associated with some great name or event, but the one thing that astonishes his weak and narrow mind more than anything else is the cheapness of tinned salmon!—City Press.

OTTAWA, July 16.—The matter in dispute at Emerson between the Dominion customs officials and the Canadian Pacific Railway Co. has been settled by the latter agreeing to continue the old arrangement of paying officials for extra time.

QUEBEC, July 16.—Mr. Edmond Trudel, special customs officer, seized yesterday the schooner Andor, Capt. Charette, which has just arrived from Riviere du Loup. She had on board 700 gallons of French liquor, 243 gallons of gin, 13 cases of Vermouth, 6 baskets of champagne, 6 cases of brandy and other small effects.

ERIN, July 16. — Mr. Thomas Wansbrough, a very highly respected farmer living two miles from the village of Erin, committed suicide last evening by cutting his throat with a pocket knife.

ROSSEAU, July 16.—The nomination of candidates to fill the vacancy in the local legislature for the electoral county of Muskoka and Parry Sound, caused by the unseating of Mr. Fauquier, was held here to-day. Mr. McEachern, conservative, and Mr. Dill, reformer, were nominated.

A heavy hailstorm broke over Markham township, York county, Ont., on Saturday afternoon, doing damage to the property of the following parties: Mr. Wm. Milliken, of Hagerman's Corners. On a farm of 175 acres, Mr. Milliken says, there will hardly be a bushel of grain. Mr. Hagerman's farm of 100 acres is also in a dilapidated condition, the storm making a clean sweep of all his crop. Messrs. Jesse Noble, Fierheller, French, Wetherall and Stonehouse all suffered loss more or less. In fact there is scarcely one of these farmers who will have enough feed for his stock.

A Hamilton paper says that serious trouble might arise in the northwest and Manitoba during the present season, Col. Houghton has been ordered to capture all the firearms he can from the companies and troops throughout the territory.

A London cablegram says: The privy council has given judgment in the case of McLaren vs. the Canada Central Railway Company, dismissing the appeal with costs, and confirming the judgment of the Supreme Court in Mr. McLaren's favor. The amount involved is about $100,000.

The King of Grain Harvesters.

In the year 1883 there were 18,000 Deering Twine Binders sold, and for the present year of 1884 the manufacturers are making 25,000 of these celebrated machines. This is no baby binder, but cut a swath 6 feet 4 inches in width *without* the inside horse walking in the standing grain. The new Knotter for this year is the success of the age. These machines are simple, light and strong, and easier on a team than any other machine made. Sole agent for B. C., E. C. Prior, Victoria, B. C.

SEATTLE.

SEATTLE, W. T., July 24.—A serious runaway took place here this afternoon. Miss Kate Mergens and Miss Lena Andrews were out driving, and the horses became excited and started to run away. The maddened horses plunged down the hill, defying all efforts of the young ladies to stop them. When the corner of Fifth street was reached the buggy collided with a tree, throwing both young ladies violently to the ground. Both were picked up unconscious. Miss Andrews escaped with some bad bruises and probable internal injuries. Miss Mergens received terrible injuries. Her skull is fractured. Both are well known, and move in the highest circles of society here, and the unfortunate accident is deeply regretted. The tree was a maple, some six or seven inches in diameter, and was torn from the ground by the roots, so great was the violence of the collision.

CALIFORNIA.

SAN FRANCISCO, July 24.—In the Sharon divorce case to-day plaintiff was again put on the witness stand. Included in her testimony is the following: "Mr. Reigert came to me by request of Mr. Newlands to see if he could not settle the difficulty. I told him if Mr. Sharon would acknowledge the marriage contract I would sign any paper he might draw, however strong. Mr. Reigert said I could get $5,000,000 to give up the papers and leave the state. This I refused to do. He said if I did not give up the paper I would have to go to gaol, as they were forgeries

☞ The attention of intending Assurers is called to the advantages specially offered by this Association.

THIS ASSOCIATION MERITS THE CONFIDENCE THAT THE PUBLIC IS REPOSING IN IT FROM THE FOLLOWING FACTS:

The Security offered to Policy-holders is unsurpassed by any Company doing business in Canada

It has no schemes of Insurance, but the well-established lines, hence the Policy-holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy-holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.
